## Application overview

## Dimensions, terminals and mounting

**Note:** The final depth of the controller depends on the selected extension module - it can vary between 41 mm and 56 mm. Mind also the size of connectors and cables (e.g. in case of RS232 connector, add about 60 mm more for a standard RS232 connector and cable).

**Note:** Enclosure type rating with mounting instruction - for use on a flat surface of a type 1 enclosure.
